Risk Factors

Risk factors deemed to be of importance for the Group's business and future development and risks relating to the Bonds are described below. The risk factors presented below are categorised as "RISKS RELATING TO THE GROUP" or "RISKS RELATING TO THE BONDS" on the basis of whether they pertain to the Group or to the Bonds. The risk factors categorised as "RISKS RELATING TO THE GROUP", are categorised as risk factors pertaining to the Group and not as risk factors pertaining to the Issuer, as the major part of the business operations in the Group are conducted by the Issuer's subsidiaries. The materiality of the risk factors has been based on the probability of their occurrence and the expected magnitude of their negative impact. The risk factors have been presented in a limited amount of categories, with the most material risk factors placed first in each category.

RISKS RELATING TO THE GROUP

RISKS RELATED TO THE GROUP'S BUSINESS AND INDUSTRY

Risks related to competition in the Group's market, occupancy rate and price level in relation to the Group's storage facilities

Medium level risk

The Group conducts rental operations of storage units, so-called self storage, to private individuals and companies, mainly in Sweden's three metropolitan regions Stockholm, Gothenburg and Malmö. As per 31 December 2020 the Group represented approximately 12 per cent. of the Swedish self storage market. The market for rental of storage space is subject to fierce competition from a number of large and established companies offering similar services as the Group, including e.g. Shurgard Self Storage, Pelican Self Storage and City Self Storage. In addition, the Issuer believes that there is a risk of increased competition from new operators, with new service offerings and logistic solutions that could potentially change the market. These new operators are for example companies that offer services where the company picks up one or several boxes for storage instead of requiring the customer to travel to the storage facility. Furthermore, there are smaller competitors with strong local roots in local markets in which the Group operates. Increased competition from existing as well as new operators may mean that the Group's market share and occupancy rates will decrease. As a consequence, there is a risk that the Group may experience difficulties in attracting new customers, which could have a negative impact on the Group's revenues, operating income and operations.

The Group's long-term objective for each storage facility is to achieve an occupancy rate (calculated on lettable square meters) of approximately 90 per cent. The Group estimates that, from the time of launch of a storage facility, it will take approximately six to seven years to achieve the long-term objective. The Group is in an expansive phase and at the date of this Prospectus the Group has 26 storage facilities, comprising approximately 12,000 storages, with an aggregate lettable area of approximately 66,500 square meters and several ongoing projects. It is generally difficult to predict future occupancy rate and as per 31 December 2020 the Group had an occupancy rate of 68.4 per cent. per square meter and 68.3 per cent. per storage unit. There is a risk that the Group will not achieve a sufficiently high occupancy rate or that the occupancy rate will be achieved much

later than the Group planned in relation to each storage facility. Failure to achieve the Group's target for the storage facilities may lead to the Group being forced to lower their prices, which would result in reduced revenues, which in turn would have a material adverse effect on the Group's operating profit. If a storage facility is not profitable for an extended period of time, the Group may need to sell the such storage facility. There is a risk that the value of the such property has decreased from the time of acquisition and that the Group therefore sells the property at a loss, which may affect the Group's financial position.

Risks related to the Group's IT system

Medium level risk

The Group uses an internally developed business system with a modern architecture that is integrated with a number of systems and components developed by third parties. Third-party IT systems allow the Group to offer an automated system for, *inter alia*, entry and exit from the Group's storage facilities without the presence of personnel from the Group. If the Group's IT system or third-party systems are down due to, for example, disruptions or computer crashes, the Group's customers would not be able to access their storage facilities without the Group's staff being present. If the Group's IT system or third-party's IT system linked to the Group's storage facilities on repeated or longer occasions is down, it can lead to increased costs for e.g. personnel, upgrades and troubleshooting of the Group's system and can adversely affect the Group's reputation.

The Group's website is also operated and maintained by third parties. The Group's website is used to present the Group's various storage services and also enables the Group's customers to enter into written agreements online. As per the financial quarter ended 30 June 2021, approximately 46 per cent. of the Group's customer agreements are entered into through the Group's website. If the Group's website would have downtime for an extended period of time, there is a risk of reduced revenues as agreements cannot be concluded via the website and that the customers choose another provider of storage services.

A high degree of digitalisation and automation is a cornerstone of the Group's business model and is deemed to be one of the Group's competitive advantages. The Group is a data-driven group and has smart properties that are connected for central operation. Technology development takes place continuously and will drive further changes in the Group's operations. Technology and digitalisation affect people's behaviour, which can lead to rapidly changing customer requirements. There is a risk that the Group is unable to adapt in the same pace as its customers or competitors, which can lead to decreased revenue that would have a negative effect on the Group's operating profit.

Risks related to destruction or damage of the Group's storage facilities

Low level risk

The Group's operations are dependent on the fact that the buildings managed by the Group have a high degree of protection and security, both directly and indirectly. There is a risk that some or all of the Group facilities will be exposed to, for example, fire, damage or other impact on the

properties. At the end of 2019, a storage facility in Eskilstuna, Sweden, owned by the Group, was damaged by a fire. The affected storage facility constituted approximately 2.5 per cent. of the Group's property portfolio at the time. There is a continued risk of fires or damage in the Group's storage facilities. Such a risk exists, among other things, as the Group does not have direct control over what the Group's customers keep in their storage spaces or what customers do during their visits at a facility. In addition, people with access to a facility can also move freely in the storage facilities without the Group's staff present. If one of the Group's buildings is destroyed or damaged, there is a risk that the incident will also result in damage to the Group's reputation with existing and potential customers, partners and municipalities, which may lead to existing or potential customers choosing another supplier for storage services. Furthermore, there is a risk that the Group's access to properties for future projects will be impaired through a decreased reputation and that the Group will to a lesser extent be prioritised by, for example, municipalities.

Risks related to demand for storage in metropolitan areas

Low level risk

The Group's storage facilities are located in the metropolitan areas of Stockholm, Gothenburg and Malmö. There is a risk that demand for storage in these regions will decrease due to the slowdown of urbanisation, reduced mobility in the housing market or changed housing conditions for private individuals. Since the Group has chosen to locate the majority of its storage facilities in metropolitan regions and most of the Group's income is derived from these storage facilities, such negative changes can have a material adverse effect on the Group's operating profit. If the leasing revenue had been reduced by 10 per cent., this would have reduced the Group's total revenue with approximately SEK 7,700,000 during the financial year of 2020.

Risks related to external partners and contractors

Low level risk

In the construction, development and renovation of the Group's storage facilities, the Group uses consultants and contractors to carry out the work. Furthermore, the Group is dependent on suppliers in both operating and maintaining the infrastructure of the storage facilities as third parties conduct these tasks. The Group's costs in connection with the construction of a storage facility on an acquired property is approximately SEK 7,000 - 10,000 per square meter gross building area (excluding cost of land). The Group's operating costs were, as per the financial quarter ended 30 June 2021, approximately SEK 34,400,000, which represented approximately 69 per cent. of the Group's net sales. There is a risk that the costs of contracting and consulting assignments will increase due to unforeseen events in connection with the construction, development, renovation or operation and infrastructure of the storage facilities. Increased costs for consulting services would affect the Group's operating profit. There is also a risk that the Group may not enter into or renegotiate agreements with existing suppliers or that these agreements may not be entered into on terms favourable to the Group. If the Group is unable to enter into agreements with suppliers, certain operational functions in the Group's storage facilities cannot be used, which would affect the Group's operational activities. Furthermore, the Group's ongoing project may be delayed, which affects the Group's ability to conduct operations and thus receive revenue from the storage facility.

Furthermore, there is a risk that the contracting companies which the Group uses will go bankrupt, which may result in the Group not being able to recover payments made for incomplete work, increased costs to procure a new contract with another contracting company and legal processes, and that one or several projects are delayed, which in the long run leads to loss of revenue. Further, there is also a risk that the current ongoing pandemic caused by the COVID-19 virus ("**COVID-19**") could cause delays in the Group's ongoing projects due to, for example, the closing of factories because of lockdowns or restrictions being implemented in certain geographical regions or illness or quarantine restriction affecting the people working on the Group's ongoing projects. If such delays occur, it would affect the Group's ability to conduct operations and receive revenues from the affected projects.

PROPERTY RELATED RISKS

Risks related to the valuation of the Group's properties

Medium level risk

The Group reports investment properties at fair value. The total value of the Group's real estate portfolio amounted to SEK 1,341,000,000 as per 31 December 2020. The Group orders an external valuation of its real estates at least once a year. The value of the Group's properties is affected by a number of factors. Such factors include, but are not limited to, property-specific factors, such as operating costs, occupancy and permissible use of the properties, and market-specific factors, such as yield requirements and capital costs. The Group reports in accordance with IFRS where assets must be measured at fair value. Unrealised value changes affect both the income statement and the balance sheet and can have a significant impact on the result for the period and contribute to the result being more volatile, as well as affecting the financial commitments that are in some cases linked to the Group's loan agreements (covenants).

The value of the properties is further determined by supply and demand, where the price is mainly dependent on the expected operating surplus of the properties and the buyer's return requirement. Increasing demand will result in lower yield requirements and thus an upward price adjustment, while declining demand will have the opposite effect. Similarly, a positive development of the operating surplus will result in an upward adjustment of prices, while a negative development will have the opposite effect. In property valuations, an uncertainty interval should be taken into account, which in a functioning market usually amounts to +/- 5 to 10 per cent. to reflect the uncertainty contained in the assumptions and calculations made. There is also a risk that the ongoing COVID-19 pandemic could have a negative effect on the value of the Group's properties. If the valuation of the Group's properties changes, the Group may be forced to write down the value of one or several of its properties, which could have a material adverse effect on the Group's operating profit.

Risks associated with the competition for attractive project properties

Medium level risk

Property acquisitions, which can be carried out directly or indirectly through a company transfer, are part of the Group's operations. In order for the property acquisitions to be completed, appropriate investment objects must be available on terms that the Group deems to be advantageous. The Group conducts its operations in metropolitan regions where there is considerable competition for attractive properties. The competition consists of companies within the entire real estate industry and thus not only competitors to the Group. Generally, there are greater values in building and managing rental properties or in building condominiums (Sw. *bostadsrätter*), which means that the Group has difficulty competing for attractive project properties. In the event of a high demand for the investment objects that the Group focuses on, the number of properties for sale may be limited or only available to the Group under unfavourable conditions, for example that the price of the project property is not attractive enough. In addition, competitors in the real estate market with investment strategies similar to the Group may have greater financial resources, lower capital costs and/or lower return requirements compared to the Group. Due to the strong competition for project properties, there is a risk that the Group will not be able to acquire attractive project properties, which would affect the Group's growth and long-term profitability. Furthermore, there is a risk that the Group acquires project properties at a price that is not adapted for the Group's business, since the price is adjusted for the property industry in general, which could lead to impairment of the property value and have a negative impact on the Group's operating profit.

Risks related to macroeconomic developments in the real estate industry

Medium level risk

The Group acquires and manages properties in order to be able to build storage facilities that the Group sublets to individuals and companies. The real estate industry is largely affected by macroeconomic factors, such as general, global or national economic trends, growth, employment development, production rate for new housing and premises, changes in infrastructure, regional economic development, population growth, inflation and changes in interest rates. There is a risk that one or several of these factors will develop in a negative direction for the Group, which may affect the Group's ability to obtain loans to acquire new properties, higher costs due to interest rate increases, customers' ability to pay and the ability to pay for storage rents, which may in the long run have a material adverse effect on the Group's ability to conduct its operations and the Group's financial position. Furthermore, the return on the sale of the properties is largely due to, among other things, the Group's ability to realise the intended objectives for the properties, which mainly consists of leasing of storage on the properties, but also in some cases sales, and the costs and expenses for development and redevelopment of the properties. If the Group should sell a real estate during a period where the price of a real estate is lower, it may have a negative impact on the Group's financial position.

Environmental risk related to the Group's properties

Low level risk

The Group's acquisition strategy is to acquire properties within three metropolitan areas in Sweden - Stockholm, Gothenburg and Malmö. The properties that the Group acquires have often been used

for other business operations during the years before the acquisitions. Some of these properties are located on land where industrial operations have previously been conducted. As of the date of this Prospectus, the Group has nine existing storage facilities located on land where industrial operations have previously been conducted. There is a risk that these properties may be subject to unforeseen environmental regulatory demands. Responsibility for environmental damage related to real estate is regulated in accordance with the Swedish Environmental Code (*Sw. miljöbalken*). The main rule is that the party that has carried out environmentally hazardous activities on the real estate is responsible for environmental damage. If the operator who caused a serious environmental damage or pollution damage cannot perform or pay for the restoration of the property, the party who acquired the contaminated property is responsible, if the acquirer was aware of the pollution at the time of the acquisition or should have discovered it. There is a risk that there are environmental damages in the Group's properties where industrial operations were previously conducted and that the Group has not discovered this despite the fact that they should in connection with the acquisition, which may lead to the Group having to pay for the restoration of the property. Furthermore, there is a risk that, following the sale of such property to a third party, the Group may be accused of conducting environmentally hazardous activities, which could lead to costly administrative procedures and legal proceedings.

LEGAL AND REGULATORY RISKS

Risks related to the handling of personal data

Medium level risk

In its operations, the Group handles personal data in relation to the Group's customers. The Group's customers register their personal information digitally on the Group's website and this personal information is handled by the Group. As of the date of this Prospectus, the Group has approximately 7,000 customers, most of whom are private individuals. There is a risk that the Group's handling of personal data is or has been inaccurate, or that due to security deficiencies a data breach occurs which leads to the spreading of personal data without the Group's control. A breach of the General Data Protection Regulation ("**GDPR**") may result in administrative sanctions amounting to the higher of EUR 20,000,000 and 4 per cent. of the previous year's combined annual turnover of the ultimate parent company that controls the business and all other companies such ultimate parent company controls. In August 2019, the Swedish Data Protection Authority issued its first penalty fee imposed under GDPR, which amounted to SEK 200,000. In determining the size of the penalty charge, the Swedish Data Protection Authority has taken into account how many data subjects were affected by the violation. In the aforementioned case, the number of data subjects amounted to 22. The Swedish Data Protection Authority has since August 2019 issued other penalty fees imposed under GDPR where the Swedish Data Protection Authority has taken into account how many data subjects were affected by the violation, including one penalty fee where potentially 5,690 data subjects could have been affected and where the penalty fee was set at SEK 75,000,000. As the Group handles a large amount of personal data, incorrect handling or data breach could lead to many data subjects being affected, which could lead to high administrative penalties, civil and/or criminal law measures and damaged reputation, and consequently may affect the Group's operations and financial position.

FINANCIAL RISKS

Risks related to financing and liquidity

Medium level risk

Liquidity risk is the risk that a company within the Group will not be able to fulfil its payment obligations, both foreseen and unforeseen, at the due date without increasing the cost of obtaining the necessary liquidity. As per the financial quarter ended 30 June 2021, the Group had cash and cash equivalents in the amount of approximately SEK 106,200,000. The Group finances its acquisitions through loans from Swedish banks, secured by guarantees (*Sw. moderbolagsborgen*) granted by the Issuer, mortgage certificates in properties or shares in certain subsidiaries, and equity. The Group needs access to liquidity to finance ongoing projects, operation of the business and pay interest and amortisation. The Group's growth strategy also requires access to cash funds to such an extent that several projects can be started and run in parallel. There is a risk that the Group will not be able to obtain loans from lenders or that existing or future shareholders are not willing to invest capital in the Issuer through new share issues. If the liquidity in the Group does not prove to be sufficient, it can have a material adverse effect on the Group's growth and long-term profitability.

Further, the Issuer may be required to refinance certain or all of its outstanding debt, including the Bonds. The Issuer's ability to successfully refinance its debt depends, among other things, on the conditions of the debt capital markets and its financial condition at such time. There is a risk that the Issuer's access to financing sources will not be available on favourable terms, or at all. Should the Issuer be unable to refinance its debt obligations on favourable terms, or at all, it would have a material adverse effect on the Group's business and financial condition and on the bondholders' recovery under the Bonds.

Risks related to an increase of interest rates

Medium level risk

Interest rate risk refers to the risk of changes in the capital market that may affect the interest rate conditions and thus borrowing costs for the Group. Interest rate risk is expressed as the cost change for the interest-bearing liabilities, expressed in SEK. As per the financial quarter ended 30 June 2021, the Group's interest-bearing liabilities amounted to approximately SEK 988,800,000. If the interest rates on the Group's loans were to be increased by 1 per cent., the Group's interest expenses would increase by SEK 9,888,000 on an annual basis, albeit with a certain delay due to fixed interest periods. Since the majority of the Group's operations relate to leasing of storage space in accordance with signed agreements it may cause difficulties for the Group to increase revenues to compensate for higher interest costs. A higher interest expense also risks having an effect on profitability, which can negatively affect both the Group's liquidity and interest coverage ratio. Consequently, this could lead to the Group having less opportunities to pay interest and amortisation, which could lead to the risk of the Group breaching one or more loan agreements.

Breach of financial conditions or covenants in loan agreements may lead to early repayment of loans, and may force the Group to sell properties. If the prevailing interest rate levels were to change in a negative way for the Group, it could have a material adverse effect on the Group's operating income, balance sheet and cash flow.

RISKS RELATING TO THE BONDS

RISK RELATED TO THE NATURE OF THE BONDS

Credit risks

Medium level risk

Investors in the Bonds carry a credit risk towards the Group. The investor's ability to receive payment under the Bonds is therefore dependent on the Issuer's ability to meet its payment obligations, which in turn is largely dependent upon the performance of the Group's operations and its financial position. The Group's financial position is affected by several factors of which some have been mentioned above.

There is a risk that an increased credit risk will cause the market to charge the Bonds a higher risk premium, which will affect the Bonds' value negatively. Another aspect of the credit risk is that there is a risk that a deteriorating financial position of the Group will reduce the Group's possibility to receive debt financing at the time of the maturity of the Bonds.

Risks relating to the Bonds being unsecured

Medium level risk

The Bonds represents an unsecured obligation of the Issuer. If the Issuer is subject to any foreclosure, dissolution, winding-up, liquidation, recapitalisation, administrative or other bankruptcy or insolvency proceedings, all of the Issuer's secured obligations must first be satisfied, potentially leaving little or no remaining assets in the Issuer for the bondholders. As a result, the bondholders may not recover any or full value.

Interest rate risks and Benchmark Regulation

Medium level risk

The Bonds' value depends on several factors, one of the most significant over time being the level of market interest. The Bonds bear a floating rate interest of 3 months STIBOR plus a margin and the interest rate of the Bonds is determined two business days prior to the first day of each interest period. Hence, the interest rate is to a certain extent adjusted for changes in the level of the general interest rate. There is a risk that an increase of the general interest rate level will adversely affect

the value of the Bonds. The general interest rate level is to a high degree affected by the Swedish and the international financial development and is outside the Group's control.

Interest payable on the Bonds is calculated by reference to STIBOR. The process for determining STIBOR and other interest-rate benchmarks is subject to a number of legislative acts and other regulations. Some of these acts and regulations have already been implemented whilst some are set to be implemented in the near future. The most extensive initiative in this respect is the Benchmark Regulation (Regulation (EU) 2016/1011 of the European parliament and of the council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014). The Benchmark Regulation came into force on the 1 January 2018. The Benchmark Regulation addresses the provision of benchmarks, the contribution of input data to benchmarks and the use of benchmarks within the European Union. The effect of the Benchmark Regulation cannot yet be fully determined due, among other things, to the limited time period that the regulation has applied. However, there is a risk that the Benchmark Regulation will affect how certain benchmarks are determined and how they develop in the future. This could, for example, lead to increased volatility regarding some benchmarks. A further potential risk is that increased administrative requirements, and resulting regulatory risk, may discourage stakeholders from participating in the production of benchmarks, or that some benchmarks cease to be provided. If this would happen in respect of benchmark that is used for the Bonds, it could potentially have negative effects for the Bondholders.

Put options

Low level risk

According to the Terms and Conditions, the Bonds are subject to prepayment at the option of each bondholder (put options). There is, however, a risk that the Issuer will not have sufficient funds at the time of such prepayment to make the required prepayment of the Bonds which could adversely affect the Issuer, e.g. by causing insolvency or an event of default under the Terms and Conditions, and thus adversely affect all bondholders and not only those that choose to exercise the option.

RISKS RELATING TO THE BONDHOLDERS' RIGHTS AND REPRESENTATION

The rights of bondholders depend on the Agent's actions and financial standing

Low level risk

By subscribing for, or accepting the assignment of, any Bond, each holder of a Bond accepts the appointment of the Agent (being on the issue date Nordic Trustee & Agency AB (publ)) to act on its behalf and to perform administrative functions relating to the Bonds. The Agent shall have, among other things, the right to represent the bondholders in all court and administrative proceedings in respect of the Bonds. However, the rights, duties and obligations of the Agent as the representative of the holders of the Bonds are subject to the provisions of the Terms and Conditions, and there is no specific legislation or market practice in Sweden (under which laws the Terms and Conditions

are governed) which would govern the Agent's performance of its duties and obligations relating to the Bonds. There is a risk that a failure by the Agent to perform its duties and obligations properly or at all will adversely affect the enforcement of the rights of the bondholders.

The Agent may be replaced by a successor Agent in accordance with the Terms and Conditions. Generally, the successor Agent has the same rights and obligations as the retired Agent. It may be difficult to find a successor Agent with commercially acceptable terms or at all. Further, there is a risk that that the successor Agent would breach its obligations under the above documents or that insolvency proceedings would be initiated against it.

There is a risk that materialisation of any of the above risks will have a material adverse effect on the enforcement of the rights of the holders of the Bonds and the rights of the holders of the Bonds to receive payments under the Bonds.

Bondholders' meetings and written procedures

Low level risk

The Terms and Conditions include certain provisions regarding bondholders' meetings and written procedures. Such meetings or written procedures may be held in order to resolve on matters relating to the bondholders' interests. The Terms and Conditions allow for stated majorities to bind all bondholders, including bondholders who have not taken part in the meeting or written procedure and those who have voted differently to the required majority at a duly convened and conducted bondholders' meeting or written procedure. A bondholder may, for instance, be bound by a majority decision to accept changes to the core aspects of the bond terms, such as changes to the interest payment dates, changes to the interest rate or extension of the final maturity date. Consequently, there is a risk that the actions of the majority in such matters will impact a bondholder's rights in a manner that is undesirable for some of the bondholders.

No action against the Issuer and bondholders' representation

Low level risk

In accordance with the Terms and Conditions, the Agent represents all bondholders in all matters relating to the Bonds and the bondholders are prevented from taking actions on their own against the Issuer. Consequently, individual bondholders do not have the right to take legal actions to declare any default by claiming any payment from the Issuer and may therefore lack effective remedies unless and until a requisite majority of the bondholders agree to take such action. However, there is a risk that an individual bondholder, in certain situations, could bring its own action against the Issuer (in breach of the Terms and Conditions), which could negatively impact an acceleration of the Bonds or other action against the Issuer.

To enable the Agent to represent bondholders in court, the bondholders and/or their nominees may have to submit a written power of attorney for legal proceedings. The failure of all bondholders to submit such a power of attorney could negatively affect the legal proceedings. Under the Terms and Conditions, the Agent has, in some cases, the right to make decisions and take measures that bind all bondholders. Consequently, there is a risk that the actions of the Agent in such matters will

impact a bondholder's rights under the Terms and Conditions in a manner that is undesirable for some of the bondholders. There is also a risk that a Swedish court will not recognise the Agent's right to represent bondholders in court, solely with reference to the Terms and Conditions. Thus, if such a written power of attorney may not be obtained from the bondholders, there is a risk that the Agent will not be able to represent the bondholders in court, which would have a negative impact on the bondholders' possibility to have a legal matter regarding the bonds tried by a court.

RISK RELATED TO THE FINANCIAL STANDING OF THE GROUP

Subsidiaries, structural subordination and insolvency of subsidiaries

Medium level risk

A significant part of the Group's assets are owned by, and a significant part of the Group's revenues are generated in, the subsidiaries of the Issuer. Accordingly, the Issuer is dependent upon receipt of sufficient income and cash flow related to the operation of and the ownership in the subsidiaries to enable it to make payments under the Bonds. The subsidiaries are legally distinct from the Issuer and have no obligation to make payments to the Issuer of any profits generated from their business. The ability of the subsidiaries to make payments to the Issuer is restricted by, among other things, the availability of funds, corporate restrictions and legal restrictions (e.g. limitations on value transfers).

If the Issuer is not able to receive funds by way of dividends or value transfer from one or more subsidiary, this could affect the Issuer's ability to service its payment obligations under the Bonds which would have a material adverse effect on the Issuer's business and financial position.

The Group or its assets may not be protected from any actions by the creditors of any subsidiary of the Group, whether under bankruptcy law, by contract or otherwise. In the event of insolvency, liquidation or a similar event relating to a subsidiary of the Issuer, the creditors of such subsidiary would be entitled to payment in full out of the assets of such subsidiary before the Issuer, as a shareholder, would be entitled to any payments. Therefore, the Bonds are structurally subordinated to the liabilities of the Issuer's subsidiaries. In addition, defaults by, or the insolvency of, certain subsidiaries of the Group could result in the occurrence of cross defaults on certain borrowings of the Group.

The website of the Issuer is *24storage.se*. The information on the website does not form part of the Prospectus unless that information is incorporated by reference into the Prospectus.

In accordance with the articles of association of the Company, adopted on 24 May 2021, the objects of the Company are to invest in real estate, directly or indirectly conduct rental of real estate and parts of real estate, conduct acquisitions, management and mediation of real estate, conduct real estate consulting and construction work, conduct consulting regarding business and development opportunities, conduct development of software, conduct securities trading and compatible activities with the above mentioned business.

Business and operations

The Issuer is a self storage company that offers private and business customers access to storage space outside the home or office and the Issuer owns, operates and develops its own self storage facilities in Sweden, with a focus on the metropolitan regions of Stockholm, Gothenburg and Malmö. The Group has self storage facilities on 26 locations in Sweden, including approximately 12,000 self storage units ranging from 1 to 30 square meters and comprising approximately 66,500 square meters of lettable space.

Through digitalisation and automation of manual processes, the Group's self storage facilities are equipped with technology that is centrally managed. The Group's proptech solutions allows it to offer customer service that is both present and scalable, and efficient property management, which is key to the Issuer's ability to run a successful customer service through central staffing of the self storage facilities. Systems and functions used in property management include control systems with sensors to monitor temperature and humidity, automated systems for customers' entry and exit from the self storage facilities which enables the customers to access most storage units 24 hours per day, and video surveillance systems that are used by the Issuer's customer service to remotely assist customers and for the Issuer to monitor the facilities. The Group's website enables the Group's customers to enter into agreements and pay for their storage units, receive information regarding their storage unit and to terminate their agreement, hence the whole process is digitalised so that a customer can access all of the Group's services without having any contact with the Group's employees.

The Group currently owns 23 of its self storage facilities and leases four of its self storage facilities. The Group's ambition is to own all self storage facilities, but the Group will sometimes enter into lease agreements if a certain suitable property in a specific location will otherwise be unavailable for the Group to acquire. The Group uses external consultants and contractors to carry out the work

in connection with the construction, development and renovation of the Group's self storage facilities.

The Issuer's target is to open three to five new self storage facilities each year. It takes each self storage facility around four years to reach an occupancy rate of 80-85 per cent., with an optimal occupancy rate of just over 90 per cent. in order to maintain capacity to meet demand from new customers.

The notice shall specify the Redemption Date and also the Record Date on which a person shall be registered as a Bondholder to receive the amounts due on such Redemption Date. Any such notice is irrevocable but may, at the Issuer's discretion, contain one or more conditions precedent. Upon expiry of such notice and the fulfillment of the conditions precedent (if any), the Issuer is bound to redeem the Bonds in full at the applicable amounts.

13.11 Acceleration of the Bonds

- (a) Upon the occurrence of an Event of Default which is continuing, the Agent is entitled to, and shall following an instruction given pursuant to Clause 13.11(d), on behalf of the Bondholders (i) by notice to the Issuer, declare all, but not some only, of the outstanding Bonds due and payable together with any other amounts payable under the Finance Documents, immediately or at such later date as the Agent determines, and (ii) exercise any or all of its rights, remedies, powers and discretions under the Finance Documents.
- (b) The Agent may not accelerate the Bonds in accordance with Clause 13.11(a) by reference to a specific Event of Default if it is no longer continuing or if it has been

decided, on a Bondholders Meeting or by way of a Written Procedure, to waive such Event of Default (temporarily or permanently).

- (c) The Agent shall notify the Bondholders of an Event of Default within five (5) Business Days of the date on which the Agent received actual knowledge of that an Event of Default has occurred and is continuing. The Agent shall, within twenty (20) Business Days of the date on which the Agent received actual knowledge of that an Event of Default has occurred and is continuing, decide if the Bonds shall be so accelerated. If the Agent decides not to accelerate the Bonds, the Agent shall promptly seek instructions from the Bondholders in accordance with Clause 15 (*Decisions by Bondholders*). The Agent shall always be entitled to take the time necessary to consider whether an occurred event constitutes an Event of Default.
- (d) If the Bondholders (in accordance with these Terms and Conditions) instruct the Agent to accelerate the Bonds, the Agent shall promptly declare the Bonds due and payable and take such actions as may, in the opinion of the Agent, be necessary or desirable to enforce the rights of the Bondholders under the Finance Documents, unless the relevant Event of Default is no longer continuing.
- (e) If the right to accelerate the Bonds is based upon a decision of a court of law or a government authority, it is not necessary that the decision has become enforceable under law or that the period of appeal has expired in order for cause of acceleration to be deemed to exist.
- (f) In the event of an acceleration of the Bonds in accordance with this Clause 13.11, the Issuer shall up to, but excluding, the date falling eighteen (18) months after the First Issue Date redeem all Bonds at an amount per Bond equal to the Call Option Amount set out in Clause 9.3(a)(ii) and thereafter, as applicable considering when the acceleration occurs, redeem all Bonds at an amount per Bond equal to the Call Option Amount for the relevant period.

14. Distribution of Proceeds

- (a) All payments by the Issuer relating to the Bonds and the Finance Documents following an acceleration of the Bonds in accordance with Clause 13 (*Events of Default and Acceleration of the Bonds*) shall be distributed in the following order of priority:
 - (i) *first*, in or towards payment *pro rata* of (i) all unpaid fees, costs, expenses and indemnities payable by the Issuer to the Agent in accordance with the Finance Documents (other than any indemnity given for liability against the Bondholders), (ii) other costs, expenses and indemnities relating to the acceleration of the Bonds, or the protection of the Bondholders' rights as may have been incurred by the Agent, (iii) any costs incurred by the Agent for external experts that have not been reimbursed by the Issuer in accordance with Clause 19.2(g), and (iv) any costs and expenses incurred by the Agent in relation to a Bondholders' Meeting or a Written Procedure that have not been reimbursed by the Issuer in accordance with Clause 15(m);

- (ii) *secondly*, in or towards payment *pro rata* of accrued but unpaid Interest under the Bonds (Interest due on an earlier Interest Payment Date to be paid before any Interest due on a later Interest Payment Date);
- (iii) *thirdly*, in or towards payment *pro rata* of any unpaid principal under the Bonds; and
- (iv) *fourthly*, in or towards payment *pro rata* of any other costs or outstanding amounts unpaid under the Finance Documents.

Any excess funds after the application of proceeds in accordance with paragraphs (i) to (iv) above shall be paid to the Issuer.

- (b) If a Bondholder or another party has paid any fees, costs, expenses or indemnities referred to in Clause 14(a)(i), such Bondholder or other party shall be entitled to reimbursement by way of a corresponding distribution in accordance with Clause 14(a)(i).
- (c) Funds that the Agent receives (directly or indirectly) in connection with the acceleration of the Bonds constitute escrow funds (*Sw. redovisningsmedel*) and must be held on a separate account on behalf of the Bondholders and the other interested parties. The Agent shall arrange for payments of such funds in accordance with this Clause 14 as soon as reasonably practicable.
- (d) If the Issuer or the Agent shall make any payment under this Clause 14, the Issuer or the Agent, as applicable, shall notify the Bondholders of any such payment at least fifteen (15) Business Days before the payment is made. Such notice shall specify the Record Date, the payment date and the amount to be paid. Notwithstanding the foregoing, for any Interest due but unpaid the Record Date specified in Clause 7(a) shall apply.

15. Decisions by Bondholders

- (a) A request by the Agent for a decision by the Bondholders on a matter relating to the Finance Documents shall (at the option of the Agent) be dealt with at a Bondholders' Meeting or by way of a Written Procedure.
- (b) Any request from the Issuer or a Bondholder (or Bondholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount (such request may only be validly made by a Person who is a Bondholder on the Business Day immediately following the day on which the request is received by the Agent and shall, if made by several Bondholders, be made by them jointly) for a decision by the Bondholders on a matter relating to the Finance Documents shall be directed to the Agent and dealt with at a Bondholders' Meeting or by way a Written Procedure, as determined by the Agent. The Person requesting the decision may suggest the form for decision making, but if it is in the Agent's opinion more appropriate that a matter is dealt with at a Bondholders' Meeting than by way of a Written Procedure, it shall be dealt with at a Bondholders' Meeting.

- (c) The Agent may refrain from convening a Bondholders' Meeting or instigating a Written Procedure if (i) the suggested decision must be approved by any Person in addition to the Bondholders and such Person has informed the Agent that an approval will not be given, or (ii) the suggested decision is not in accordance with applicable laws.
- (d) Only a Person who is, or who has been provided with a power of attorney or other authorisation pursuant to Clause 6 (*Right to Act on Behalf of a Bondholder*) from a Person who is, registered as a Bondholder:

- (i) the issue of any Subsequent Bonds, if the total nominal amount of the Bonds exceeds, or if such issue would cause the total nominal amount of the Bonds to at any time exceed, SEK 800,000,000 (for the avoidance of doubt, for which consent shall be required at each occasion such Subsequent Bonds are issued);
 - (ii) a change to the terms of any of Clause 2(a), and Clauses 2(f) to 2(h);

 - (x) early redemption of the Bonds, other than upon an acceleration of the Bonds pursuant to Clause 13 (*Events of Default and Acceleration of the Bonds*) or as otherwise permitted or required by these Terms and Conditions.
- (f) Any matter not covered by Clause 15(e) shall require the consent of Bondholders representing more than 50 per cent. of the Adjusted Nominal Amount for which Bondholders are voting at a Bondholders' Meeting or for which Bondholders reply in a Written Procedure in accordance with the instructions given pursuant to Clause 17(c). This includes, but is not limited to, any amendment to, or waiver of, the terms of any Finance Document that does not require a higher majority (other than an amendment permitted pursuant to Clause 18(a)(i) or 18(a)(ii)) or an acceleration of the Bonds.
- (g) Quorum at a Bondholders' Meeting or in respect of a Written Procedure only exists if a Bondholder (or Bondholders) representing at least fifty (50) per cent. of the Adjusted Nominal Amount in case of a matter pursuant to Clause 15(e), and otherwise twenty (20) per cent. of the Adjusted Nominal Amount:
- (i) if at a Bondholders' Meeting, attend the meeting in person or by telephone conference (or appear through duly authorised representatives); or
 - (ii) if in respect of a Written Procedure, reply to the request.
- If a quorum exists for some, but not all, of the matters to be dealt with at a Bondholders' Meeting or by a Written Procedure, decisions may be taken in the matters for which a quorum exists.

The quorum requirement in Clause 15(g) shall not apply to such second Bondholders' Meeting or Written Procedure.
- (i) Any decision which extends or increases the obligations of the Issuer or the Agent, or limits, reduces or extinguishes the rights or benefits of the Issuer or the Agent, under the Finance Documents shall be subject to the Issuer's or the Agent's consent, as appropriate.
- (j) A Bondholder holding more than one Bond need not use all its votes or cast all the votes to which it is entitled in the same way and may in its discretion use or cast some of its votes only.
- (k) The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Bondholder for or as inducement to any consent under these Terms and Conditions, unless such consideration is offered to all Bondholders that consent at the relevant Bondholders' Meeting or in a Written Procedure within

the time period stipulated for the consideration to be payable or the time period for replies in the Written Procedure, as the case may be.

- (l) A matter decided at a duly convened and held Bondholders' Meeting or by way of Written Procedure is binding on all Bondholders, irrespective of them being present or represented at the Bondholders' Meeting or responding in the Written Procedure. The Bondholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause other Bondholders.
- (m) All costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Bondholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.
- (n) If a decision shall be taken by the Bondholders on a matter relating to the Finance Documents, the Issuer shall promptly at the request of the Agent provide the Agent with a certificate specifying the number of Bonds owned by Group Companies or (to the knowledge of the Issuer) Affiliates, irrespective of whether such Person is directly registered as owner of such Bonds. The Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible to determine whether a Bond is owned by a Group Company or an Affiliate.
- (o) Information about decisions taken at a Bondholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to the Bondholders and published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Bondholders' Meeting or Written Procedure shall at the request of a Bondholder be sent to it by the Issuer or the Agent, as applicable.

16. Bondholders' Meeting

- (a) The Agent shall convene a Bondholders' Meeting by sending a notice thereof to each Bondholder no later than five (5) Business Days after receipt of a request from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons).
- (b) Should the Issuer want to replace the Agent, it may convene a Bondholders' Meeting in accordance with Clause 16(a) with a copy to the Agent. After a request from the Bondholders pursuant to Clause 19.4(c), the Issuer shall no later than five (5) Business Days after receipt of such request (or such later date as may be necessary for technical or administrative reasons) convene a Bondholders' Meeting in accordance with Clause 16(a).
- (c) The notice pursuant to Clause 16(a) shall include (i) time for the meeting, (ii) place for the meeting, (iii) agenda for the meeting (including each request for a decision by the Bondholders) and (iv) a form of power of attorney. Only matters that have been included in the notice may be resolved upon at the Bondholders' Meeting. Should prior notification by the Bondholders be required in order to attend the Bondholders' Meeting, such requirement shall be included in the notice.

- (d) The Bondholders' Meeting shall be held no earlier than fifteen (15) Business Days and no later than thirty (30) Business Days from the notice.
- (e) Without amending or varying these Terms and Conditions, the Agent may prescribe such further regulations regarding the convening and holding of a Bondholders' Meeting as the Agent may deem appropriate. Such regulations may include a possibility for Bondholders to vote without attending the meeting in person.

17. Written Procedure

- (a) The Agent shall instigate a Written Procedure (which may be conducted electronically) no later than five (5) Business Days after receipt of a request from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons) by sending a communication to each such Person who is registered as a Bondholder on the Business Day prior to the date on which the communication is sent.
- (b) Should the Issuer want to replace the Agent, it may send a communication in accordance with Clause 17(a) to each Bondholder with a copy to the Agent.
- (c) A communication pursuant to Clause 17(a) shall include (i) each request for a decision by the Bondholders, (ii) a description of the reasons for each request, (iii) a specification of the Business Day on which a Person must be registered as a Bondholder in order to be entitled to exercise voting rights, (iv) instructions and directions on where to receive a form for replying to the request (such form to include an option to vote yes or no for each request) as well as a form of power of attorney, and (v) the stipulated time period within which the Bondholder must reply to the request (such time period to last at least fifteen (15) Business Days from the communication pursuant to Clause 17(a)). If the voting shall be made electronically, instructions for such voting shall be included in the communication.
- (d) When the requisite majority consents of the total Adjusted Nominal Amount pursuant to Clauses 15(e) and 15(f) have been received in a Written Procedure, the relevant decision shall be deemed to be adopted pursuant to Clause 15(e) or 15(f), as the case may be, even if the time period for replies in the Written Procedure has not yet expired.

18. Amendments and Waivers

- (a) The Issuer and the Agent (acting on behalf of the Bondholders) may agree to amend the Finance Documents or waive any provision in a Finance Document, provided that:
 - (i) such amendment or waiver is not detrimental to the interest of the Bondholders, or is made solely for the purpose of rectifying obvious errors and mistakes;
 - (ii) such amendment or waiver is required by applicable law, a court ruling or a decision by a relevant authority; or

- (iii) such amendment or waiver has been duly approved by the Bondholders in accordance with Clause 15 (*Decisions by Bondholders*).
- (b) The consent of the Bondholders is not necessary to approve the particular form of any amendment to the Finance Documents. It is sufficient if such consent approves the substance of the amendment or waiver.
- (c) The Agent shall promptly notify the Bondholders of any amendments or waivers made in accordance with Clause 18(a), setting out the date from which the amendment or waiver will be effective, and ensure that any amendments to the Finance Documents are published in the manner stipulated in Clause 10.3 (*Publication of Finance Documents*). The Issuer shall ensure that any amendments to the Finance Documents are duly registered with the CSD and each other relevant organisation or authority, to the extent such registration is possible with the rules of the relevant CSD.
- (d) An amendment to the Finance Documents shall take effect on the date determined by the Bondholders Meeting, in the Written Procedure or by the Agent, as the case may be.

19. Appointment and Replacement of the Agent

19.1 Appointment of Agent

- (a) By subscribing for Bonds, each initial Bondholder appoints the Agent to act as its agent in all matters relating to the Bonds and the Finance Documents, and authorises each of the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder.
- (b) By acquiring Bonds, each subsequent Bondholder confirms the appointment and authorisation for the Agent to act on its behalf, as set forth in Clause 19.1(a).
- (c) Each Bondholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. The Agent is not under any obligation to represent a Bondholder which does not comply with such request.
- (d) The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.
- (e) The Agent is entitled to fees for its work and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agent's obligations as Agent under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.

- (f) The Agent may act as agent or trustee for several issues of securities issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

19.2 Duties of the Agent

- (a) The Agent shall represent the Bondholders subject to and in accordance with the Finance Documents. The Agent is not responsible for the content, valid execution, legal validity or enforceability of the Finance Documents.
- (b) When acting in accordance with the Finance Documents, the Agent is always acting with binding effect on behalf of the Bondholders. The Agent shall carry out its duties under the Finance Documents in a reasonable, proficient and professional manner, with reasonable care and skill.
- (c) The Agent's duties under the Finance Documents are solely mechanical and administrative in nature and the Agent only acts in accordance with the Finance Documents and upon instructions from the Bondholders, unless otherwise set out in the Finance Documents. In particular, the Agent is not acting as an advisor (whether legal, financial or otherwise) to the Bondholders or any other Person.
- (d) The Agent is not obligated to assess or monitor the financial condition of the Issuer or compliance by the Issuer of the terms of the Finance Documents unless to the extent expressly set out in the Finance Documents, or to take any steps to ascertain whether any Event of Default (or any event that may lead to an Event of Default) has occurred. Until it has actual knowledge to the contrary, the Agent is entitled to assume that no Event of Default (or any event that may lead to an Event of Default) has occurred.
- (e) The Agent is entitled to delegate its duties to other professional parties, but each of them shall remain liable for the actions of such parties under the Finance Documents.
- (f) The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other Person, other than as explicitly stated in the Finance Documents.
- (g) The Agent is entitled to engage external experts when carrying out its duties under the Finance Documents. The Issuer shall on demand by the Agent pay all costs for external experts engaged after the occurrence of an Event of Default, or for the purpose of investigating or considering (i) an event which the Agent reasonably believes is or may lead to an Event of Default, (ii) a matter relating to the Issuer which the Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents or (iii) as otherwise agreed between the Agent and the Issuer. Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 14 (*Distribution of Proceeds*).

- (h) Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any law or regulation.
- (i) If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including its respective reasonable fees) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, or the Bondholders (as applicable), the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.
- (j) Unless it has actual knowledge to the contrary, the Agent may assume that all information provided by or on behalf of the Issuer (including by its advisors) is correct, true and complete in all aspects.
- (k) The Agent shall give a notice to the Bondholders (i) before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or (ii) if it refrains from acting for any reason described in Clause 19.2(i).

19.3 Limited liability for the Agent

- (a) The Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall not be responsible for indirect or consequential loss.
- (b) The Agent shall not be considered to have acted negligently if it has acted in accordance with advice addressed to it from or opinions of reputable external experts or if it has acted with reasonable care in a situation when it considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- (c) The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by it to the Bondholders, provided that it has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by it for that purpose.
- (d) The Agent shall not have any liability to the Bondholders or to the Issuer for damage caused by it acting in accordance with instructions of the Bondholders given in accordance with the Finance Documents.
- (e) Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.
- (f) The Agent is not liable for information provided to the Bondholders by or on behalf of the Issuer or any other Person.

19.4 Replacement of the Agent

- (a) Subject to Clause 19.4(f), the Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.
- (b) Subject to Clause 19.4(f), if the Agent is Insolvent, the Agent shall be deemed to resign as Agent and the Issuer shall within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- (c) A Bondholder (or Bondholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice may only be validly given by a Person who is a Bondholder on the Business Day immediately following the day on which the notice is received by the Issuer and shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent be appointed.
- (d) If the Bondholders have not appointed a successor Agent within ninety (90) days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the Agent was dismissed through a decision by the Bondholders, the Issuer shall appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- (e) The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- (f) The Agent's resignation or dismissal shall only take effect upon the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent.
- (g) Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- (h) In the event that there is a change of the Agent in accordance with this Clause 19.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights,

powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents. Unless the Issuer and the new Agent agrees otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

20. Appointment and Replacement of the CSD

- (a) The Issuer has appointed the CSD to manage certain tasks under these Terms and Conditions and in accordance with the CSD regulations and the other regulations applicable to the Bonds.
- (b) The CSD may retire from its assignment or be dismissed by the Issuer provided that the Issuer has effectively appointed a replacement CSD that accedes as CSD at the same time as the old CSD retires or is dismissed and provided also that the replacement does not have a negative effect on any Bondholder. The replacing CSD must be authorized to professionally conduct clearing operations pursuant to the Swedish Securities Markets Act (*Iag (2007:528) om värdepappersmarknaden*) or Regulation (EU) no. 909/2014 and be authorized as a central securities depository in accordance with the Financial Instruments Accounts Act.

- (b) The Issuing Agent may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has approved that a commercial bank or securities institution approved by the CSD accedes as new Issuing Agent at the same time as the old Issuing Agent retires or is dismissed. If the Issuing Agent is Insolvent, the Issuer shall immediately appoint a new Issuing Agent, which shall replace the old Issuing Agent as issuing agent in accordance with these Terms and Conditions.

22. No Direct Actions by Bondholders

- (a) A Bondholder may not take any steps whatsoever against the Issuer to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer in relation to any of the liabilities of the Issuer under the Finance Documents.
- (b) Clause 22(a) shall not apply if the Agent has been instructed by the Bondholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 19.1(c)), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or by any reason described in Clause 19.2(i), such failure must continue for at least

forty (40) Business Days after notice pursuant to Clause 19.2(k) before a Bondholder may take any action referred to in Clause 22(a).

- (c) The provisions of Clause 22(a) shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due to it under Clause 9.4 (*Mandatory repurchase due to a Change of Control Event, Listing Failure Event and De-listing Event (put option)*) or other payments which are due by the Issuer to some but not all Bondholders.

The right to receive payment of interest (excluding any capitalised interest) shall be prescribed and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been prescribed and has become void.
- (b) If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (*Sw. preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Bonds, and of three (3) years with respect to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the limitation period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.
